TRUTH-IN-SAVINGS ACCOUNT DISCLOSURE - SHARE, SAVINGS, AND CHECKING ACCOUNTS

- 1. Rate Information:** The Annual Percentage Yield (APY) is a percentage rate that reflects the total amount of dividend / interest to be paid on an account based on the dividend / interest rate and frequency of compounding for an annual period. The dividend / interest rate and Annual Percentage Yield (APY) may change at any time as determined by Credit Union Management under the direction of the Credit Union Board of Directors. The disclosed dividend rate and Annual Percentage Yield on your Share account reflects the prospective rate and Annual Percentage Yield which the Credit Union anticipates will be paid for the current dividend period. The **Simple Checking** account is a non-interest bearing account in which no interest is paid.
- 2. Nature of Dividends:** Dividends are paid from current income and available earnings, after required transfers to reserves at the end of a dividend period.
- 3. Minimum Balance Requirements:** The minimum balance requirements for each account are set forth above. Minimum balance requirements may include a minimum opening deposit, the minimum balance that you must maintain in the account to avoid service fees, and the minimum balance that you must maintain each day to earn the stated Annual Percentage Yield for that account. For your **Regular Share** account the minimum balance required to open this account is the purchase of a share (par value of \$5.00) in the credit union. In addition, you must maintain a minimum daily balance of \$50.00, have transaction activity (credits or debits) for the past 90 days, and have other active accounts with us to avoid the monthly single service fee of \$5.00. You must maintain a minimum average daily balance of \$100.00 in the account to obtain the disclosed annual percentage yield.
- 4. Compounding and Crediting:** The frequency with which dividends / interest will be compounded / credited is set forth above. The dividend / interest period is the period of time at the end of which an account earns dividend / interest credit. The dividend / interest period begins on the first calendar day of the period and ends on the last calendar day of the period.
- 5. Balance Computation Method:** For dividend / interest bearing accounts the Average Daily Balance method is used as set forth above. The Average Daily Balance method applies the periodic rate to the Average Daily Balance in the account for the period. The average daily balance is calculated by adding the balance in the account for each day of the period and dividing that figure by the number of days in the period.
- 6. Accrual of Dividends/Interest:** For dividend / interest bearing accounts, dividends / interest will begin to accrue on the business day you deposit cash and non-cash items (such as checks) to your account.
- 7. Effect of Closing:** For dividend / interest bearing accounts, if you close your account before payment of dividends / interest on the account, you will not receive accrued dividends or interest. For your **Regular Share, Save the Change, Savings (Kids, Holiday, and Member Choice), and Money Markets (Money Market, Mega, and Premium)** accounts, the Credit Union reserves the right to require at least seven (7) days, and up to sixty (60) days' notice prior to withdrawal or transfer of funds.

TRUTH-IN-SAVINGS ACCOUNT DISCLOSURE - CERTIFICATES OF DEPOSIT

Certificates of Deposit – Unless otherwise indicated, the term “Certificate of Deposit” also refers to your IRA Certificate of Deposit.

- 1. Compounding and Crediting:** The frequency with which dividends / interest will be compounded / credited is set forth above. The dividend / interest period is the period of time at the end of which an account earns dividend / interest credit. The dividend / interest period begins on the first calendar day of the period and ends on the last calendar day of the period.
 - (a) For Fixed Certificates of Deposit, the interest rate and Annual Percentage Yield are fixed and will be in effect for the initial term of the account.
- 2. Minimum Opening Deposits:** The minimum balance requirements are set forth above. Minimum balance requirements may include a minimum opening deposit and the minimum balance you must maintain each day to earn the stated Annual Percentage Yield for that Certificate of Deposit.
- 3. Compounding and Crediting:** The frequency with which interest will be compounded / credited is set forth above. The interest period is the Certificate of Deposit’s term. The interest period begins on the first calendar day of the term and ends on the maturity date.
- 4. Balance Computation Method:** For Certificates of Deposit, interest is calculated by the Daily Balance Method which applies a daily periodic rate to the principle in the account each day.
- 5. Accrual of Interest:** For Certificates of Deposit, interest will begin to accrue on the business day you deposit cash and non-cash items (such as checks) to your account.
- 6. Transaction Limitations:** After your Certificate of Deposit Account is opened, you may not make deposits into the Account until the maturity date stated on the Certificate of Deposit or automatic renewal thereof. Your Certificates of Deposit are non-transferable and non-negotiable except for use as collateral on a loan which you obtain from us. IRA Certificate of Deposit may not be pledged as collateral.
- 7. Withdrawal of Interest Prior to Maturity:** Withdrawal of Interest Prior to Maturity: Interest earned may be withdrawn prior to maturity without penalty. The Annual Percentage Yield is based on an assumption that interest will remain in the Account until maturity. A withdrawal will reduce earnings. (Upon automatic renewal, interest paid in the previous term becomes principal and is subject to early withdrawal penalties.)
- 8. Penalties for Early Withdrawal of Principal:** We may impose a penalty if you withdraw any of the principal in your Certificate of Deposit before the maturity date.
 - (a) The penalty will equal thirty (30) days of interest in your Certificate of Deposit with a term of less than 12 months, ninety (90) days of interest in your Certificate of Deposit with a term of 12 months, and one hundred eighty (180) days of interest in your Certificate of Deposit with a term greater than 12 months. The penalty will be imposed regardless of whether interest equal to the amount of the penalty has been earned at the time of withdrawal. To the extent that interest in the Certificate of Deposit at the time of withdrawal is insufficient to pay the entire penalty assessed, the penalty will be assessed against principal. If the balance of a Certificate of Deposit is reduced below the disclosed minimum balance, the penalty will be assessed and the Certificate of Deposit will be closed. Upon automatic renewal, interest paid in the previous term and not withdrawn becomes principal and is subject to early withdrawal penalties
- 9. Exceptions to Early Withdrawal Penalties:** At our option, we may pay the Certificate of Deposit before maturity without imposing an early withdrawal penalty under the following circumstances:
 - (a) When an account owner dies or is determined legally incompetent by a court or other body of competent jurisdiction.
 - (b) Where the Certificate of Deposit is an Individual Retirement Account (IRA) and any portion is paid within seven (7) days after the establishment of the plan or the owner attains age 59 1/2 or becomes disabled.
- 10. Maturity:** Your Certificate of Deposit will mature as indicated on this Truth-In-Savings Disclosure, or on your transaction receipt, account summary, or statement.
- 11. Renewal Policies:** Your Certificates of Deposit will automatically renew at maturity for the same term and at the interest rate then being paid on Certificate of Deposit of that type and term. You will have a grace period of seven (7) calendar days after the maturity date to withdraw the funds in the Certificate of Deposit without being charged an early withdrawal penalty. The above notwithstanding, the Credit Union may, at its election, notify you not less than fifteen (15) days prior to the maturity date that (a) the Certificate of Deposit will be renewed for a different term or, (b) the Certificate of Deposit will not be renewed. In the event that the Certificate of Deposit will not be renewed at maturity, funds in your Certificate of Deposit will be paid into your Share Account and will earn dividends at the rate and APY paid on those Accounts.
- 12. Membership:** As a condition of membership, you must purchase and maintain the minimum required share(s) and pay a nonrefundable membership fee as set forth below.
Par Value of One Share: \$5.00; Number of Shares Required: 1; Membership Fee: \$10.00
- 13. National Credit Union Share Insurance Fund:** Member accounts in this Credit Union are federally insured to at least \$250,000.00 by the National Credit Union Administration and backed by the full faith and credit of the United States Government.
